

DYNAMIC AQUA CONTROL

Dampening Roller Cleaner for Oil Based & UV Ink

DESCRIPTION OF THE PRODUCT

AQUA CONTROL is a well-balanced effective dampening roller wash that quickly and easily cleans UV ink as well as oil-based ink on rollers. AQUA CONTROL provides and keeps a uniformed hydrophilic layer on the roller surface.

KEY FEATURES AND BENEFITS

- Effective to both UV ink and oil-based ink.
- Cleans ink and glaze from dampening rollers
- Provides a durable hydrophilic layer on the roller surface to prevent from ink deposit.

DIRECTION OF USE

1. Soake shop cloth with appropriate amount of AQUA CONTROL.
2. Wipe uniformly throughout roller surface to remove ink.
3. Wait till the roller surface to dry or wipe off the residue of AQUA CONTROL before resume printing.

Note: Do not spill AQUA CONTROL into the water tray, not to mix with fountain solution.
