

KPN GRAPHIC

TECHNICAL DATA SHEET

Dynamic Web Blanket AS

Key performance

- Special developed surface rubber compound offers excellent dot re-production and solid coverage.
- Tough carcass construction offer improved longevity and excellent smash resistance with reduce gauge loss.
- Unique compressible layer structure technology stay stable and consistent.
Offers longer blanket life on press to improved shock absorption, rapid recovery and better smash resistance.

The product at a glance

RUBBER COMPOUND	For conventional ink type
SURFACE FINISH	Ground
COMPRESSIBLE LAYER	Closed cell
PRINTING SURFACE COLOUR	Blue
THICKNESS (mm)	1.95/1.68mm
COMPRESSIBILITY	Medium
SURFACE ROUGHNESS (Ra micron)	1.2 (Medium)
TENSILE STRENGTHS (N/mm)	> 90
ELONGATION AT 500N/50mm	5%
APPLICATION	Cold-Set and Heat-Set web Offset printing
PAPER FEED	Positive
