DOYLE SHEET CLEANERS SOLVE DUST & DEBRIS ISSUES

For Commercial & Specialty Printers

- Clean stock means less downtime and waste
- Used by manufacturers of books, lottery tickets, flooring, credit cards and aseptic packaging; anywhere dust or debris is a problem
- Extremely effective in UV curing applications

For Package Printers

- Attain high-quality printing, even when running recycled stock
- Remove paper fiber and coating dust due to slitting recycled and SBS stocks
- Less waste and reduced wash-ups
- Cleaning the stock will satisfy the most critical customers
- Clean paperboard, corrugated cardboard, preprint linerboard, aseptic packaging and plastic

SYSTEMS

DOYLE SHEET CLEANERS SOLVE DUST & DEBRIS ISSUES

For Coaters & Laminators

- Effectively cleans before coating and laminating
- Efficient collection with a cyclone dust collector

Results: Longer run times between wash-ups

Demonstration of the effectiveness of the Doyle Cleaning System:

The left side of the blanket shows sheets running through the press with maximum spray powder applied and the Doyle System turned off. The right side of the blanket shows the results with the Doyle System turned on.
